# Jiqi Wang (Winton)

jiqi_wang@umail.ucsb.edu • (805) 886-9367

## OBJECTIVE

To obtain a software engineering internship that allows me to utilize my knowledge to solve real-world problems in the computer science field, to contribute to my company and to improve my skills.

## EDUCATION

University of California, Santa Barbara (UCSB)                      Expected: March 2021
Bachelor of Science in Computer Science, Minor in Statistics
GPA: 3.97, Dean's Honor: All quarters (6)

## Skills

- Proficient in C++ and familiar with Java, JavaScript, CSS, Python and Python flask
- Familiar with Adobe Premiere and some short video applications
- Fluent in Mandarin and English, can read Japanese text

## RELEVANT EXPERIENCE

**Wallpaper Engine Web Project**                                August 2019

- A HTML wallpaper that includes cursor follow, meteoric shower, digital clock effects (by JavaScript canvas) and notepad function (jQuery)
- Currently, have around 19,000 subscribers

**Data Analyst / Reporter**                         June 2017 – September 2017
Chongqing Doll Tech. (A publisher of educational robots for children between 3 - 12)

- Participated in organizing 5 offline robot experience meetings, collected and analyzed user surveys and derived features that parents value most: Visual Programming, affluency in communication and safety
- Published 4 passages (1000-1500) per week online on introducing Roboticist
- Tested 1 robot's parameters and functionalities per week and wrote the test report

## LEADERSHIP EXPERIENCE

**Activity Coordinator, Go Club, UCSB**                    February 2018 – Present

- Organize three seminars on go with other universities, such as Taiwan's Fo Guang College
- Collaborate with the president on managing the weekly meeting

**Member, UCSB IEEE (Institute of Electrical and Electronics Engineers)**    March 2018 - Present

- Participated in the ColorFight (a competition utilizing Flask to program AI to acquire land)
- Achieved one 1st place and one 2nd place among 8 competitors in group phase (3 rounds)
